

You and Me and the Road

It's just you, me, and the road tonight.
No one else needs to matter.
Let's you and me make a memory.
We can go someplace far.

No one else needs to matter.
This town is too entrapping.
We can go someplace far.
People are always watching here.

This town is too entrapping.
Pack the stuff you need.
People are always watching here.
Meet me down the road.

Pack the stuff you need.
I can't wait to run with you.
Meet me down the road.
Drop our cares and go.

I can't wait to run with you.
Take me away from my history.
Drop our cares and go.
Forget about everyone else tonight.

Take me away from my history.
Let's you and me make a memory.
Forget about everyone else tonight.
It's just you, me, and the road tonight.
